

# BLAISE HARRIS

Raleigh, NC • (304) 282-8342 • blaiseharris25@gmail.com • linkedin.com/in/blaise-harris

Skilled Full-Stack Developer with a sound understanding of Java, Javascript, and SQL. Collaborative team player, adept at Agile methodologies, with experience in efficiently coordinating with global teams and managing complex databases. Proven competence in problem-solving, front-end and back-end development using Angular and Spring frameworks. Aiming to leverage advanced technical expertise for optimizing software development and data operations.

**Languages:** Java, Python, JavaScript, MySQL

**Frameworks:** Spring, Angular

**Tools:** Git, Jira, Jenkins, Maven, REST, Hibernate, Gradle, Bootstrap, RabbitMQ

**Other Skills:** MongoDB, MVC, JSP, JPA, HTML, CSS, Agile, Postman, Windows, XML

**Additional Experience:** Consoles (Switch, Xbox One, PS4), Mobile Devices (iPhone, Android), VR hardware (Oculus)

## PROFESSIONAL EXPERIENCE

### Walmart

02/2024 – Current

#### *Digital Personal Shopper – Dispenser/Stocking*

- Efficiently unload groceries during peak periods, ensuring a fast-paced workflow.
- Handle customer inquiries and resolve issues promptly maintaining high standards of customer service.
- Maintain a tight schedule while balancing order preparation and routine quality checks.
- Showcased proficiency in following procedures with adherence to company standards.

### Nextgen via HCL Technologies

11/2022 – 07/2023

#### *Developer, Remote*

- Designed and implemented software solutions to a complex healthcare system.
- Collaborated in Agile sprints and meetings to develop solutions to solve critical defects.
- Played a key role in optimizing project execution and productivity through global team coordination.
- Managed large databases, ensuring efficient data manipulation for a scalable workflow.

- Worked closely with the QA team to log defects in Jira and communicate effectively about issues and solutions.

## **HCL Technologies**

01/2022 – 07/2023

*Intern and Full-Time Developer, Remote*

- Elevated from intern to full-stack developer, actively contributed to team-oriented objectives.
- Applied Angular and Spring frameworks to boost user experience and create responsive interactive interfaces.
- Served as driving force in an agile team, enhancing processes and software quality for enterprise projects.
- Engineered a functional front-end for seamless interaction with backend data across diverse categories.
- Extensively worked with Jira to log issues and describe various issues with formatting knowledge and Jira elements.

## **Additional Relevant Experience**

- Familiarity with game engines such as Unreal, with hands-on experience creating small areas within Unreal Engine.
- Enough skill in Python to develop a hard-coded Python bot using RL Gym.
- Exposure to every aspect of the software development life cycle including planning, design, implementation, testing, deployment, and maintenance.
- Understanding of computer hardware, game code structure, and a passion for video games.
- Built two gaming computers from scratch.

## **EDUCATION**

### **Associate's in Computer Programming and Development**

08/2019 – 12/2022

*Wake Technical Community College*

- **Cloud Application Development, CSC-227**
- **Full-Stack Agile Software Development, CSC-154**
